### 2015 Annual Meeting

This year's annual meeting will be held on February 19, 2015 at the Stafford County Annex located at 310 W. 3rd in St. John (just east of the Courthouse). The meeting will start at 7:00 p.m. Personnel from the Kansas Water Office and Kansas Department of Agriculture—Division of Water Resources (KDA-DWR) will be on hand to give an update on the their agencies' strategies for the upcoming year. There will also be an election of directors, a review of the 2014 financial statement, 2016 proposed budget and updates on the various projects and programs of the District. The Central Kansas Water Bank Association will also have their annual meeting on the same evening.

### Certificates of Incumbency

Certificates of Incumbency must be filed with the District office in order for a representative from a Corporation, LLC, Municipality, Estate, Trustee or a Tenant to vote at the annual meeting. These forms are available on our website at [www.gmd5.org](http://www.gmd5.org) as well as in the office and must be notarized. Please feel free to call or stop by the office if you have any questions.

### Central Kansas Water Bank Association

The recent deadline for the water bank was utilized by many local water users. As of December 31, 2014, the Central Kansas Water Bank Association (Association) had 686 active savings accounts. This accounts for approximately 15% of all water rights within the Association boundaries. With a savings account, it is possible to preserve a portion of unused water into your own account for your use in future years. If you are part of the remaining 85% of the water right owners, come talk to us to see what the Association can do for you today!

The water bank has another program that allows water to be deposited from one location and leased to another within the same hydrologic unit through the Deposit program. This program uses the actual water use for the ten years between 1987 and 1996. This is the maximum amount of water considered bankable with the CKWBA for use at another location. The deposit program does have a term limitation of five years. Following the expiration of that term, the full water right is available to be used by the original water user or be re-deposited into CKWBA. The deadline for deposit in this program is April 1.

### Online Water Use Reporting

Each year, the water use reports are due to KDA-DWR offices by March 1. However, this year there is a new program being tested at the field offices and groundwater management district offices. KDA-DWR with the help of the Kansas Geological Survey, has implemented a system for reporting water use online. If you are interested in participating, contact the Stafford Field Office or our District office.
